

Repeating Defects

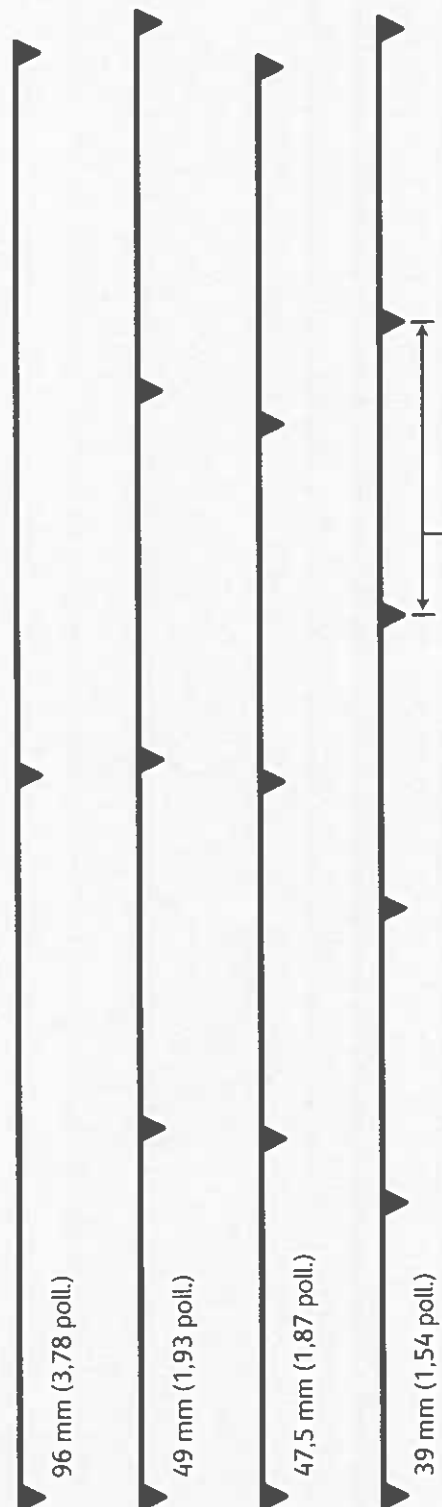

Défauts récurrents

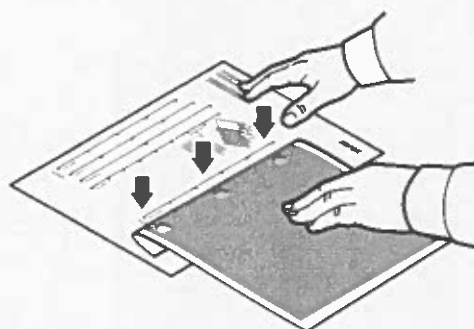

Difetti ripetuti

Unità imaging

Per identificare il componente responsabile del difetto, confrontare il campione di stampa con le misure mostrate.

Per diagnosticare un difetto sulla cinghia di trasferimento, stampare otto pagine in un formato Letter/A4 con alimentazione lato lungo. Verificare che lo stesso difetto venga visualizzato su ogni quarta pagina.

Richiedere assistenza per questo difetto.

Rullo di trasferimento

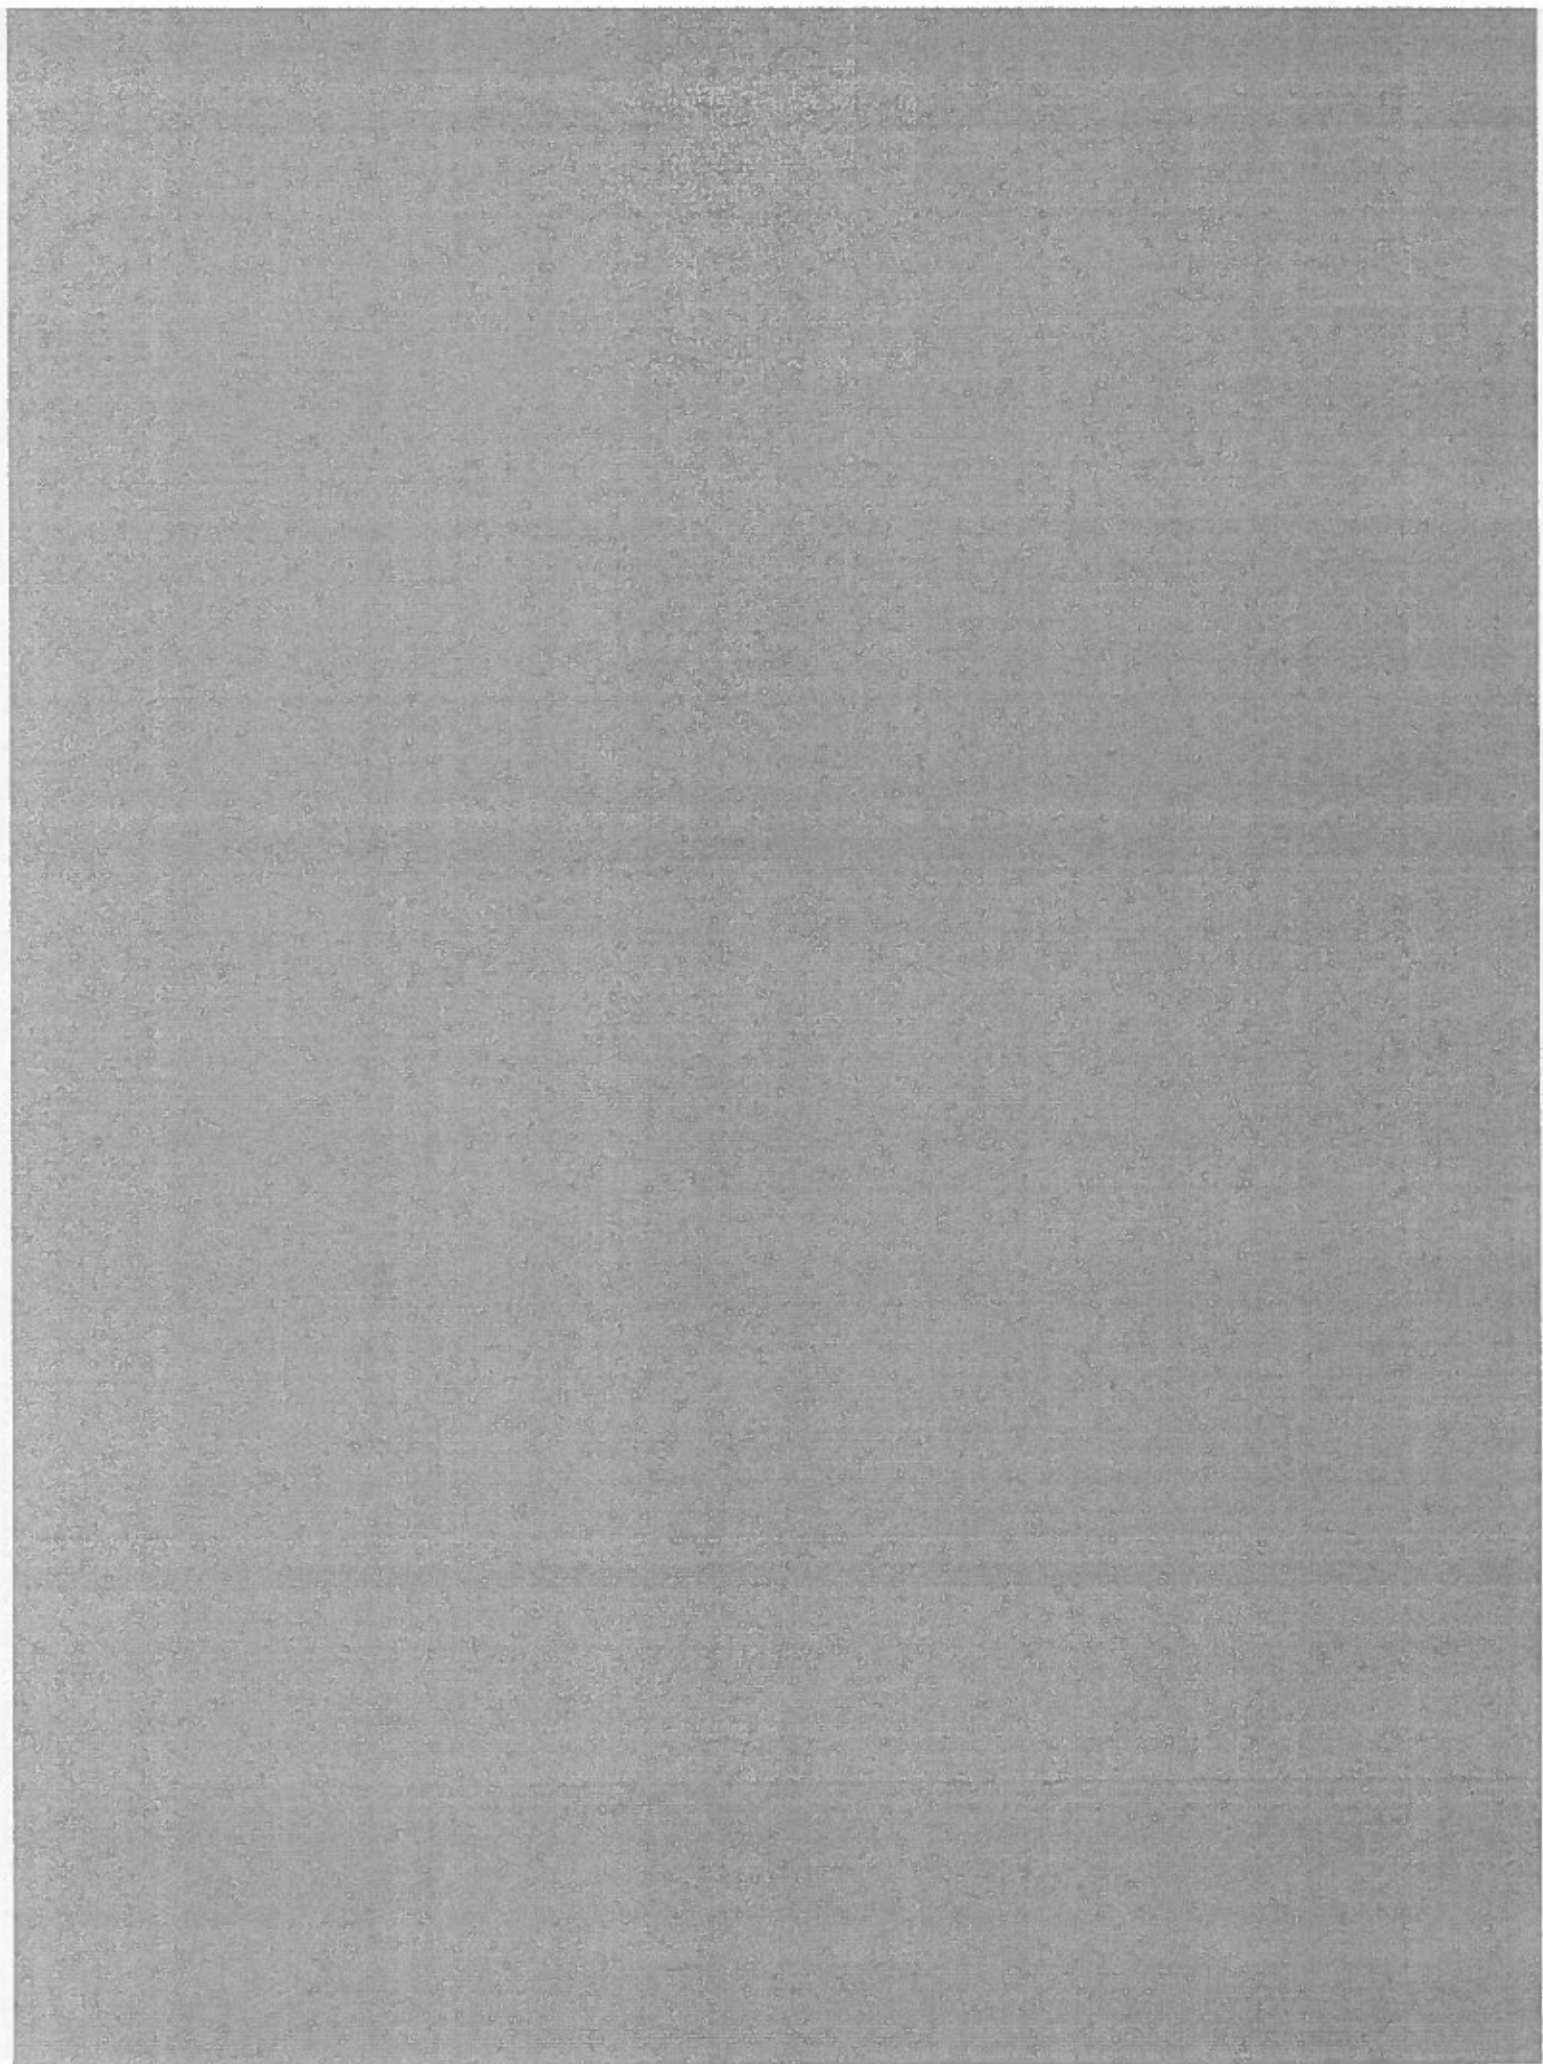

89,5 mm (3,52 poll.)

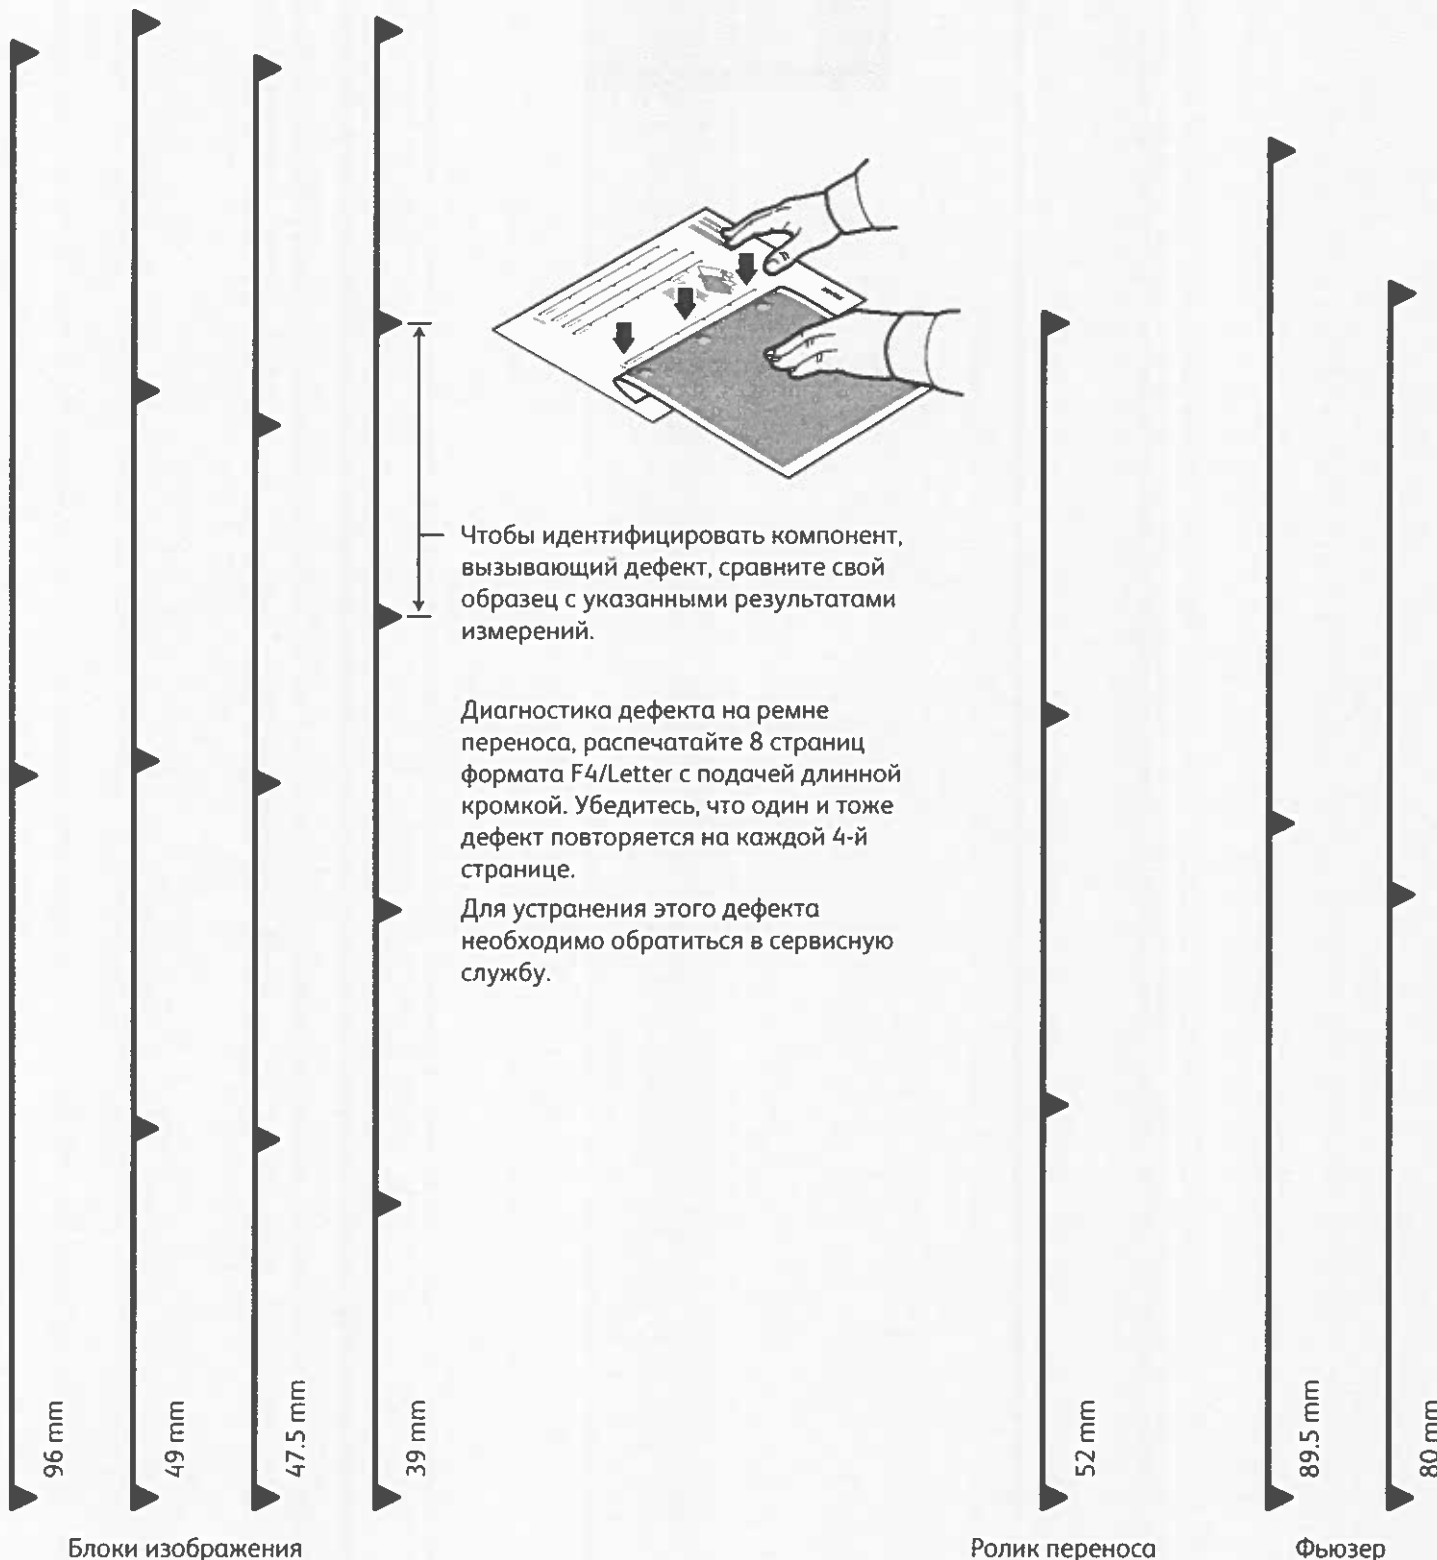

Fusore

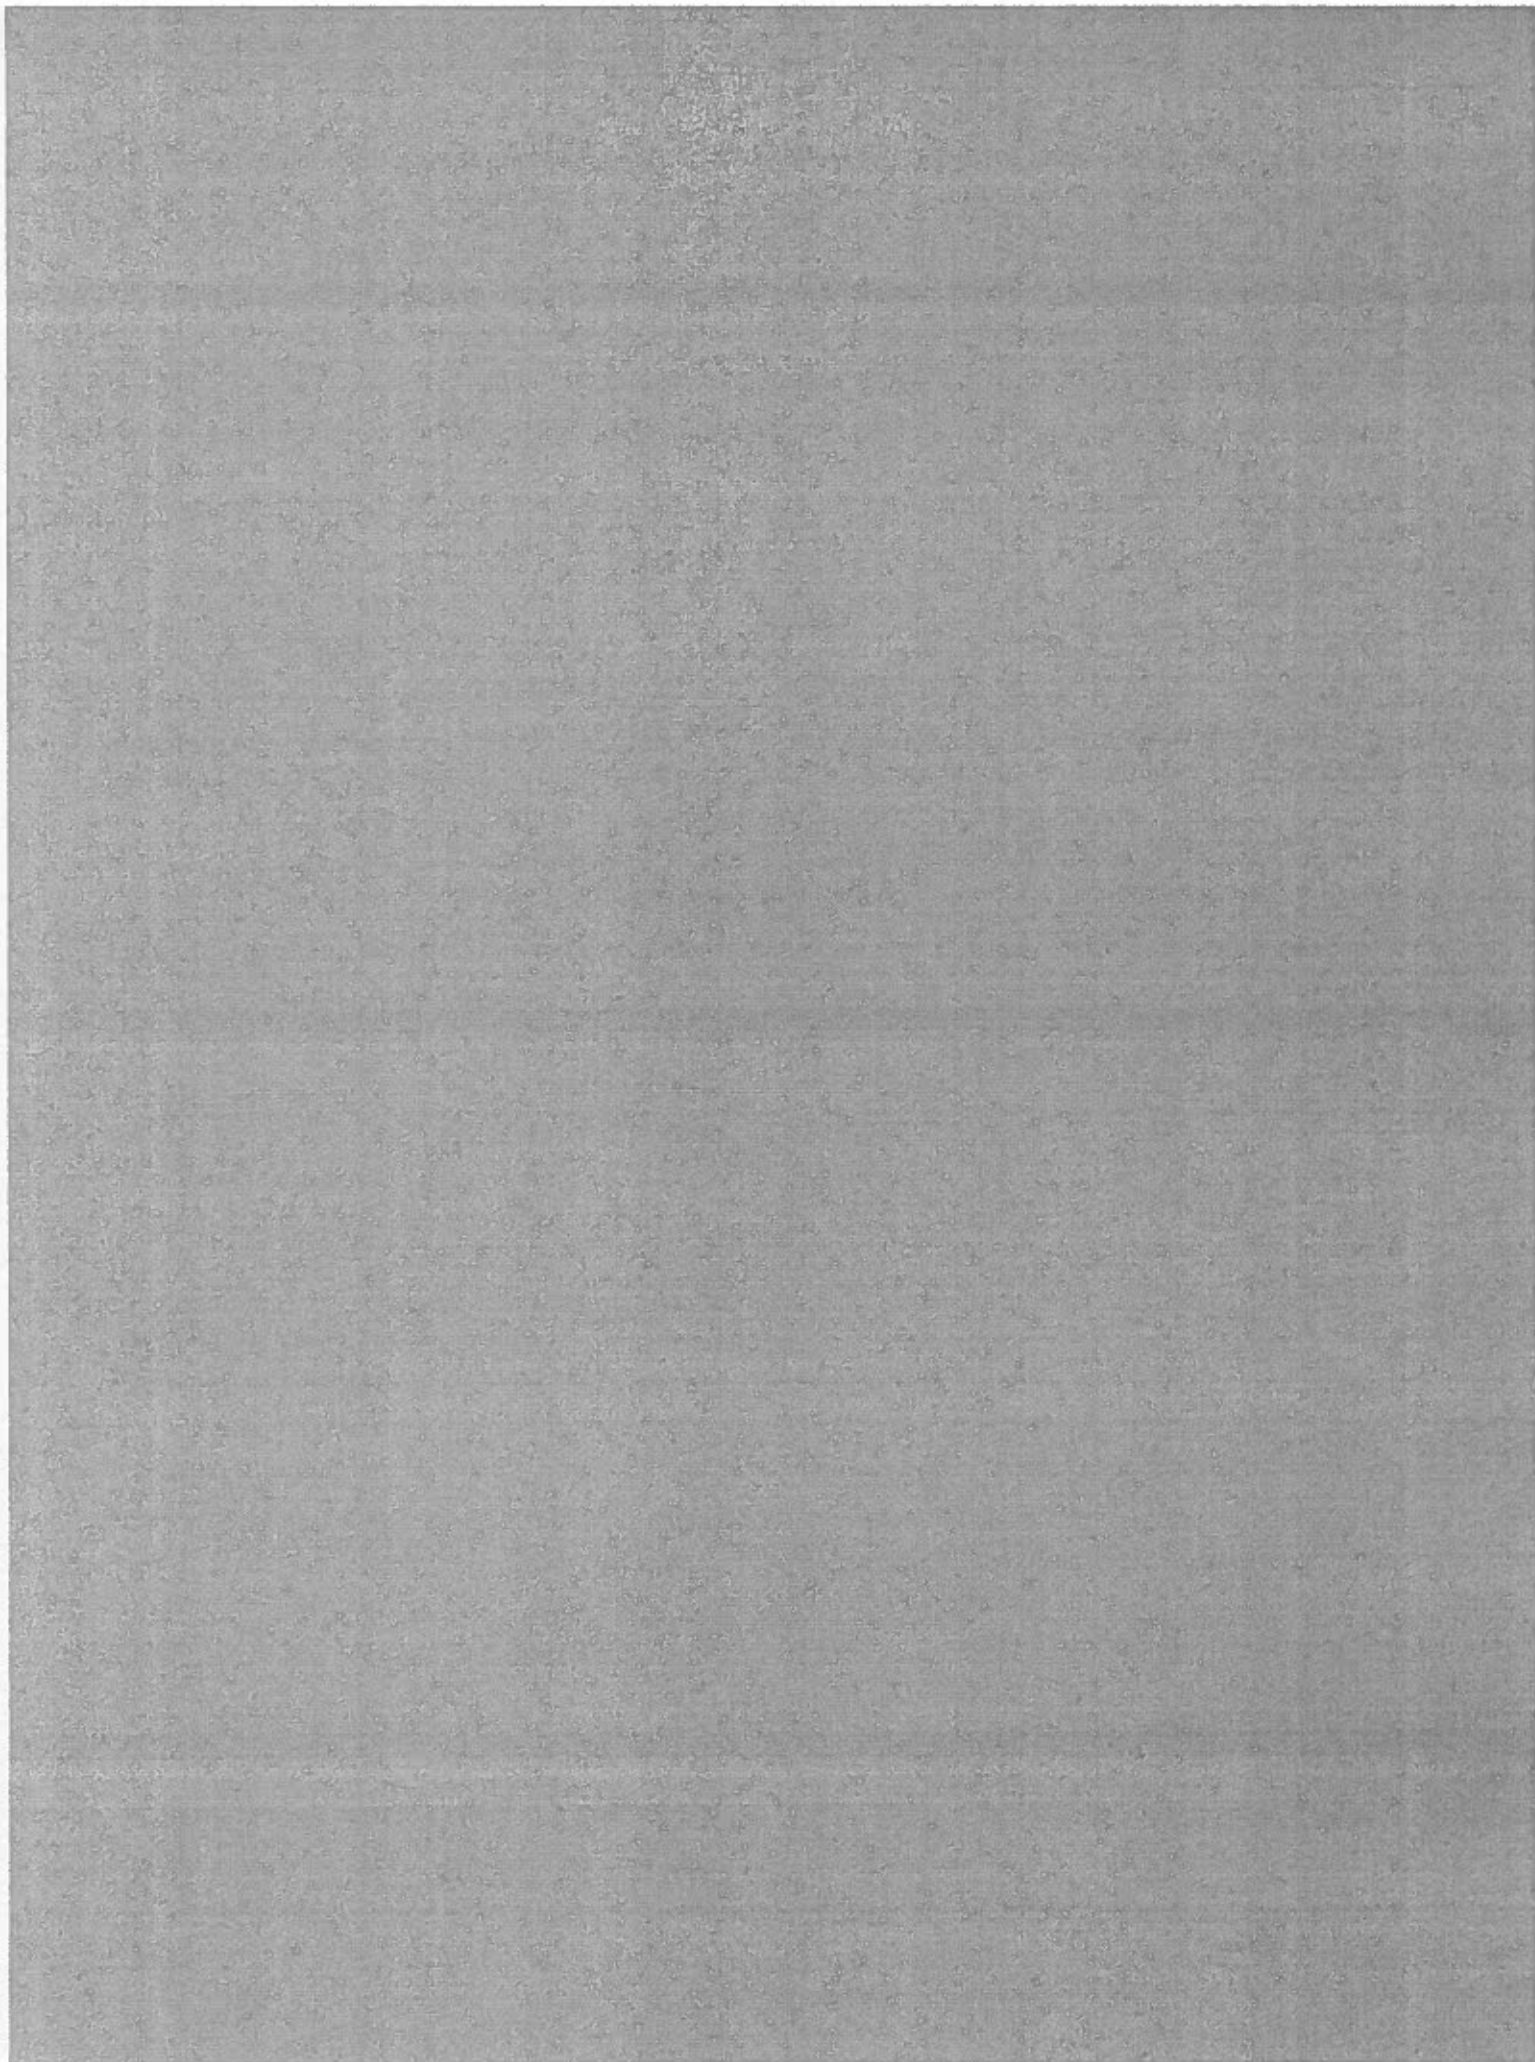

80 mm (3,15 poll.)
